Dear Dr. Lederberg:

I enjoyed talking with you last week about the Society's new research fellowship programs in endocrinology and reproductive physiology. As you suggested, I telephoned Dr. Bardin at the Population Council, and he was quite enthusiastic about the project.

We had a lengthy discussion about the forms our collaboration could take. Dr. Bardin offered assistance in a number of ways, including help in recruiting applicants for the two fellowship positions. I am writing to him with a description of the research projects we hope to conduct in association with the Council.

I will keep you informed of our progress. Thanks for your help, and best regards.

Sincerely,
